**Waikato Expressway Cambridge Section:
Notice of Requirement for Alteration of Designation**

Please find enclosed the New Zealand Transport Agency's notice of requirement for alteration of the existing designation for the Waikato Expressway Cambridge Section. Please note that the notice of requirement is bound into the enclosed reports.

Enclosed are one hard-copy set and two digital copies (on compact discs) of the following documents:

1. *Waikato Expressway Cambridge Section: Notice of Requirement, Resource Consent Applications and Assessment of Environmental Effects* (Opus International Consultants, December 2010)
2. *Waikato Expressway Cambridge Section: Scheme Drawings* (Opus International Consultants, December 2010).

Also attached is a cheque for \$3,066.50, which is the Waipa District Council's service fee deposit for a notified requirement for alteration to a designation.

I understand that the Waikato District Council has agreed that Waipa District Council will be the leading agency for the consideration of the notices of requirement and resource consent applications, and that Chris Dawson of Bloxham Burnett and Oliver will be responsible for reviewing the notices of requirement. Accordingly, as requested by Mr Dawson, we will send to him (at the same time as we send this letter and its attachments) three hard copies and five digital copies of the above listed documents. In other words, the documents enclosed with this letter are intended for use by Waipa District Council staff, and additional sets of the documents are being sent directly to Mr Dawson.

Should you require any further information about the Waikato Expressway Cambridge Section, or additional hard copies or digital copies of the enclosed documents, then would you please contact me or Paul Ryan at phone (07) 838-9344.

Yours sincerely

Jeremy Gibbons
Project Manager
