Local Government and Official Information and Meetings Act 1987

The following charges and procedures for the provision of official information are approved by Government and endorsed by the office of the Ombudsman.

Existing charges to remain

There are currently areas where access to official information is given free of charge or pursuant to an existing charging arrangement.

Fixing the amount of charge

The amount of charge should be determined by:

- Establishing whether or not the request is made by an identifiable natural person seeking access to any personal information about that person.
- Such requests are **not** subject to any change.
- The aggregate amount of staff time exceeding one hour spent in actioning the request.
- This will include search and retrieval of information, the provision of transcripts and the supervision of access.
- The number of pages of A4 sized of foolscap photocopy to be provided exceeding 20.
- For any other cost, the amount actually incurred in responding to the request.
- This will cover the provision of copies of video, audio and film tapes, computer time or other situations where a direct charge is incurred.

Where repeated requests are made in respect of a common subject over intervals of up to eight weeks, requests after the first should be aggregated for charging purposes.

The charge should represent a reasonable fee for access given. It may include time spent:

- In searching an index to establish the location of the information.
- In locating (physically) and extracting the information from the place where it is held.
- In reading and reviewing the information.
- In supervising the access to the information.

The charge should **not** include any allowance for:

- Locating and retrieving information which is not where it ought to be; or
- Time spent deciding whether or not access should be allowed and in what form.

Where the free threshold is only exceeded by a small margin it is a matter of discretion whether any fee should be paid and, if so, how much.

Staff time

Time spent by staff searching for relevant material, abstracting and collating, copying, transcribing and supervising access where the total time is in **excess of one hour** should be charged out as follows:

- An initial charge of \$44.00 for the first chargeable half hour or part thereof; and
- Then \$44.00 for each additional half hour or part thereof.

The rate of charge applies irrespective of the seniority or grading of the officer who deals with the request.

Time spent in deciding whether or not to approve access and in what form should **not** be charged.

Photocopying

Photocopying on standard A4 or foolscap paper should be charged out as follows:

- No charge 0 to 5 pages.
- 20 cents each page after the first 5 pages.

Actual costs

- All other charges incurred should be fixed at an amount, which recovers the actual costs involved.
- Producing a document by the use of a computer or other like equipment.
- Reproducing a film, video or audio recording.
- Arranging for the applicant to hear or view an audio or visual recording.
- Providing a copy of any map, plan or other document larger than A4 or foolscap size.

It is reasonable to recover actual costs involved when information provided will be of personal/commercial gain to the user, rather than benefiting the public at large. Personal gain does not include obtaining access to personal information.

Remission of charges

The liability to pay any charge may be modified or waived at the discretion of the department or organisation receiving the request. Such decisions should have regard to the circumstances of each request. However, it would be appropriate to consider inter alia:

- Whether payment might cause the applicant financial hardship.
- Whether remission or reduction of the charge would facilitate good relations with the public or assist the department or organisation in its work.

- Whether remission or reduction of the charge would be in the public interest because it is likely to contribute significantly to public understanding or of effective participation in the operations or activities of the government, and that the disclosure of the information is not primarily in the commercial interest of the requester.

Questions which could be asked by decision-makers in order to establish the level of public interest are, inter alia:

- Is the use of the information by the requester likely to make a significant contribution to operations and activities of government?
- Has the government requested submission from the public on a particular subject and is the information necessary to enable informed comment?
- Is the use of information likely to contribute to the understanding of the subject by the public at large as opposed to the individual understanding of the requester or a narrow segment of interested people?
- Is the information meaningful informative about operations and activities of government that have a direct connection to the reason for the request?
- Is the information already in the public domain in either the same or similar form, which the requester could acquire without substantial cost?
- Is the public at large the primary beneficiary of the expenditure of public funds necessary to release the information or is it the requester or a narrow segment of interested people?
- Is the information primarily in the commercial interest of the requester rather than the public interest?

While it might appear on initial consideration that requests for information, for say, research purposes or to write a book or to have available in a library, might be considered in the 'public interest' and answer some of the criteria; this may not necessarily be so. There should still be reasonable evidence to show that the wider public benefit will accrue as a result of the research, or book or library depository. In the case of the media however, it can be reasonably assumed that they do have access to means of public dissemination. Each request should be considered on a case-by-case basis in light of all relevant information.

Members of Parliament may be exempted from charge for official information provided for their own use. In exercising this discretion it would be appropriate whether remission of charges would be consistent with the need to provide more open access to official information for Members of Parliament in terms of the **reasonable** exercise of their democratic responsibilities.

Deposits

A deposit may be required where the charge is likely to exceed \$40.00 or where some assurance of payment is required to avoid waste of resources. A deposit may only be requested after a decision has been made to make the information available.

The applicant should be notified of the amount of deposit required, the method of calculating the charge and the likely final amount to be paid. Work on the request may be suspended pending receipt of the deposit.

The unused portion of any deposit should be refunded forthwith to the applicant together with a statement detailing how the balance was expended.

Review of decisions on charges

Section 27(1)(b) of the Official Information Act 1982 provides that the Ombudsman may investigate and review any decision on the charge to be paid in respect of a request for access to official information. When information applicants of charges to be paid, organisations should point out this right of appeal to the Ombudsman.

A record should be kept of all costs incurred. Wherever a liability to pay is incurred the applicant should be notified of the method of calculating the charge and this fact noted on the record.

GST

The charges given in these guidelines are inclusive of GST.

This combination of general rates, UAGC and targeted ward rates is referred to as 'district-wide funding'. Activities funded from district-wide funding include governance, animal control, building, environmental health, resource management, development engineering, parks and reserves, Mighty River Domain, libraries, Cambridge pool, Te Awamutu Events Centre, museums, heritage, cemeteries, public toilets, property, rural halls, town halls, community buildings, civil defence, litter bins, recycling, roading, stormwater, water supply and sewerage.

Definition of a separately used or inhabited part of a rating unit (SUIP).

A separately used or inhabited part of a rating unit exists where there is use or ability to use a part or parts of the rating unit as an independent residence; or in the case of a rating unit used for commercial or industrial business, where there is use or ability to use a part or parts of the rating unit for independent trading operations. This is on the basis that where a rating unit is configured for the purpose of separate habitation or use, even if it is not currently occupied, this constitutes a separate use of the rating unit by the owner.

General Rate

A general rate is set under section 13 of the Local Government (Rating) Act 2002 based on the capital value of each rating unit in the district and with no differential being set. The rate for 2018/19 is 0.1420 cents per dollar of capital value of each rating unit.

The general rate will fund 57 per cent of the district-wide funding.

Amount to be raised: \$23,826,714 inclusive of GST.

Uniform Annual General Charge (UAGC)

A uniform annual general charge is set under section 15 of the Local Government Rating Act 2002 for 2018/19 at \$606.00 inclusive of GST per separately used or inhabited part of a rating unit.

The uniform annual general charge will fund a portion of the district-wide funding.

Amount to be raised: \$13,852,554 inclusive of GST.

Targeted Rates

Targeted rates are set under Sections 16 and 19 of the Local Government (Rating) Act 2002 for the activities listed below.

Targeted Ward Rates

A targeted ward rate is set on each rating unit in the district. The targeted rate is a fixed amount per rating unit. This rate will be set on a differential basis based on location, being the wards of Te Awamutu, Kakepuku, Cambridge, Maungatautari and Pirongia. The rates for the 2018/19 year are shown in the following table:

Ward	\$ Rate (Incl GST)	\$ Raising
Cambridge	360.15	3,024,877
Kakepuku	385.73	455,551
Maungatautari	313.11	437,728
Pirongia	362.41	1,074,911
Te Awamutu	443.27	2,868,384

The targeted ward rate will fund a portion of the district-wide funding and fund the public community/group benefit element of activities.

The activities funded from the targeted ward rate include community boards, community grants, libraries, Cambridge pool, Te Awamutu Events Centre, museums, Cambridge Town Hall (Cambridge ward only) community properties (Cambridge and Te Awamutu Wards), passenger transport, Cambridge Refuse Centre grant, and National Cycling Centre of Excellence.

Amount to be raised: \$7,861,450 inclusive of GST.

Cambridge Community Sports Hall

A targeted rate is set to fund the loan charges for the grant made for the development of the sports hall located at the Cambridge High School.

The targeted rate is a fixed amount per rating unit. A rate of \$10.00 inclusive of GST is set for each rating unit in the Cambridge and Maungatautari wards.

Amount to be raised: \$98,000 inclusive of GST.

Urban Town Halls

A targeted rate is set to fund the maintenance costs for the Pirongia Memorial Hall and the Kihikihi Town Hall and part of the maintenance costs of the Cambridge Town Hall.

The targeted rate is a fixed amount per rating unit. A rate of \$6.70 inclusive of GST is set for each rating unit in the Cambridge and Te Awamutu wards and in the Pirongia Township being roll number 4605.

Amount to be raised: \$102,810 inclusive of GST.

Capital Works

A targeted rate is set to fund capital costs in connection with improvements and extensions to footpaths, kerbing and channelling of roads and street lighting for each ward as follows.

The capital works rate is based on the capital value of each rating unit in the district. The capital works rate is set on a differential basis based on location, with the categories being the wards of Te Awamutu and Cambridge. The rates in cents per dollar of capital value are shown in the following table:

Ward	Rate in cents per dollar (Incl GST)	\$ Raising
Cambridge	0.0011	63,063
Te Awamutu	0.0012	39,125

Amount to be raised: \$102,188 inclusive of GST.

Stormwater

A targeted rate is set to fund the operating costs and loan charges for stormwater in urban and rural areas of the district. The stormwater rate is based on the capital value of each rating unit in the district. The stormwater rate is set on a differential basis based on location, the categories being urban and rural. Urban is defined as being the urban drainage areas of Cambridge, Te Awamutu, Kihikihi, Ōhaupō, Pirongia and Karāpiro, as shown on Drainage Maps on www.waipadc.govt.nz. Rural is defined as the remaining area of the district not defined as urban. The rates for 2018/19 in cents per dollar of capital value are shown in the following table:

	Rate in cents per dollar (Incl GST)	\$ Raising
Urban	0.0411	2,948,089
Rural	0.0066	604,349

Amount to be raised: \$3,552,439 inclusive of GST.

Sewerage Charges

A targeted rate is set for sewerage disposal costs and loan charges for each rating unit in the areas of the Cambridge sewerage scheme and the Te Awamutu sewerage scheme.

The targeted rate is set on a differential basis based on the provision of service, the categories of service being connected and serviceable. Connected means any rating unit that is connected to the Cambridge or Te Awamutu sewerage scheme. Serviceable means any rating unit situated within 30 metres of a public sewerage drain in one of the above Council sewerage scheme areas to which it is capable of being effectively connected but which is not so

connected. For connected rating units, the rate is an amount per pan or urinal for connected rating units. For Serviceable rating units, the rate is an amount per rating unit. The rates for the 2018/19 year are:

	\$ Rate per pan or urinal (Incl GST)	\$ Raising
Connected (3 or less pans)	492.89	6,339,561
Connected (4 to 10 pans)	418.96	465,880
Connected (11-15 pans)	345.02	137,664

The targeted rate is set on a differential basis based on the provision of service, the categories of service being connected and serviceable, and is a fixed amount per separately used or inhabited part of a rating unit. Connected means connected to Council water works in the Cambridge or Te Awamutu water supply areas, but excluding metered connections. Serviceable means within 100 metres of a supply pipe in either of the above water supply areas and capable of being effectively connected but not so connected. The rates for the 2018/19 year are:

The differential categories of service are potable and raw water supply. The rates for the 2018/19 year are:

The following may also be included as additional charges:

Utility access requirements

For all work to be undertaken on road reserve (including within footpaths, berms and carriageways) a corridor access request (CAR) is required. The CAR allows Council to approve, track and ensure proper reinstatement to works undertaken in the street.

The Utilities Access Act 2010 provides for applications for permission to excavate in streets and roads for services such as electricity, water, gas, telecoms etc.

Under certain circumstances Waipa District Council will accept 12 month access opportunities under our multiple occurrence coverage formats. This is for maintenance works only not new projects.

All access requests may be inspected at any time for compliance with permit conditions
