

Waipa District Council
Cambridge Ward
Electing 4 Councillors

Don SANDERS

My principal place of residence is in the Cambridge Ward area.

I grew up here and wouldn't consider living anywhere else. So, like you, I live with the consequences of council decisions. I'm about as average a Cambridge citizen as you can get. I'm not on any boards nor do I run any business that get council funding. But I notice when rates increase, infrastructure falls behind, spots are painted on our roads, or flower boxes block access ways and parking spots. But most of all, I notice when people from other wards get on our council, spend our rates, but are insulated from any of the problems they cause. My qualification for council is that I live here, and I will continue living here long after the decisions of our next council have taken effect. In regards to the three waters, we need to fight like hell. If you stand next to me, you will never stand alone.
