

SAFER ROADS, SAFER WAIPĀ

We're looking at all the roads in Waipā. We want to know the hot spots in your area so we can ensure our roads are as safe as possible for everyone.

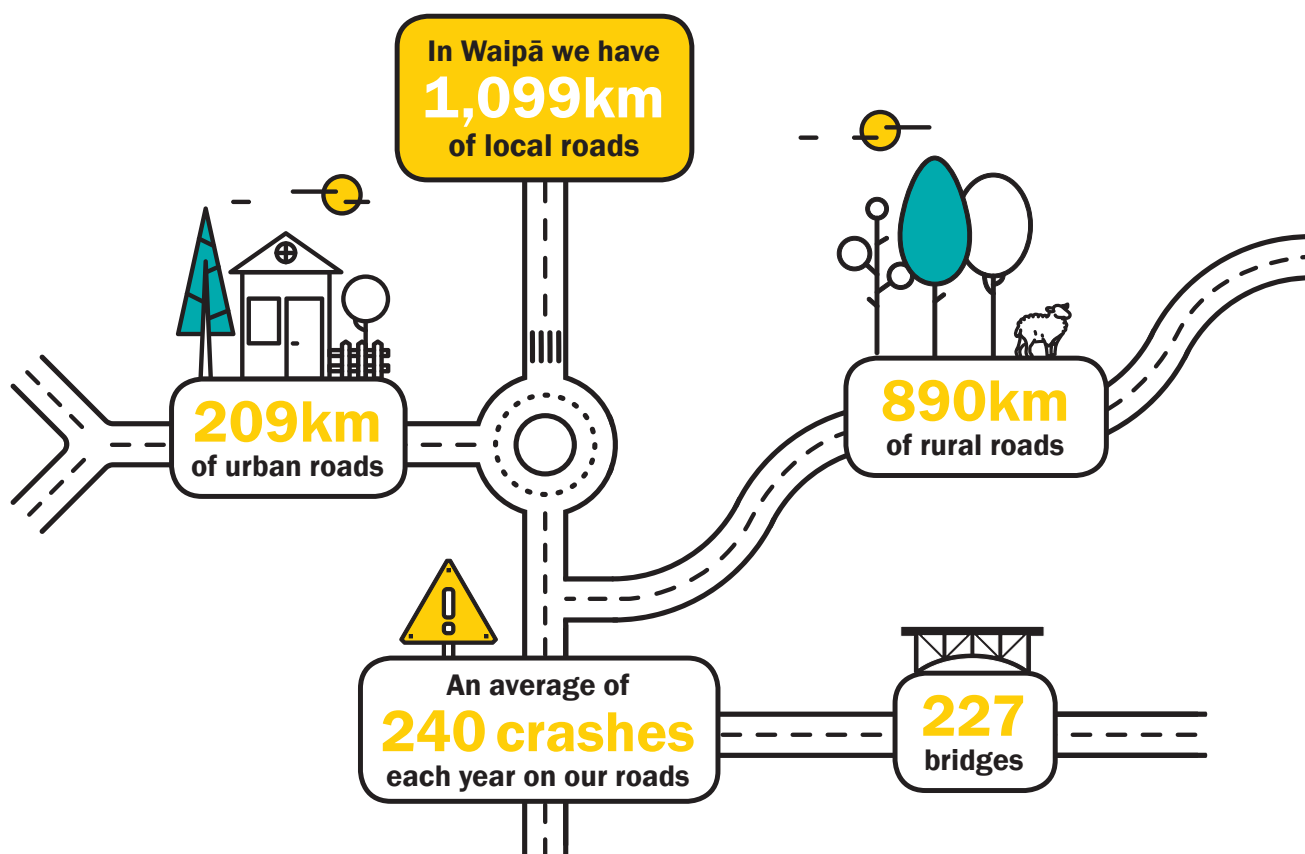

In Waipā, we have 1,099km of roads across our district. This does not include more than 88km of state highways managed by the New Zealand Transport Agency.

Not all roads are built the same. Rural roads have a different purpose to roads within the town centre. They also have different users.

The majority of our roads are in good condition but there are still on average 240 crashes on Waipā's roads each year. So there's still areas we can improve on.

Instead of focusing solely on speed, we want to look at the bigger picture. We want to get an understanding of all of the risks on our roads and make sure we manage them well. Risks could include areas that are too narrow, blind corners, unsafe areas for pedestrians to cross etc.

Whether you use the road in your car, on your bike, on foot, or by horse – we want to hear from you.

WE NEED YOUR LOCAL KNOWLEDGE TO HELP IDENTIFY THE HOT SPOTS IN OUR DISTRICT. SO STEER US YOUR WAY AND HAVE YOUR SAY!

HAVE YOUR SAY

We need your local knowledge to help identify the hot spots in our district.

Your feedback will help us decide what changes should be made to our roads. Changes could include making road improvements or educating road users about safer habits. Your feedback will also inform our Speed Limit Bylaw review.

Your details

Full name / organisation

Age (optional)

Street address
