Hamilton 3240**

**1<sup>st</sup> May**

**Waipa District Council,  
Private Bag 2402  
TeAwamutu 3840**

**In The Matter of  
Resource Management Act  
The Waipa District Plan**

**Application for Private Plan Change 10 by Waikato Regional Airport Limited and  
Titanium Park Limited.**

The Hamilton Pistol Club opposed the application on the grounds of the following.

The proposed new entry design from the ROW was steep and included two tight turns, this was not suitable for the entry a large service vehicles. Discussions with WRAL and the design team have revised the entryway which we are comfortable with.

The proposed new entry would lower the northern boundary by 3 meters which would expose our neighbours to greater noise. Discussions with WRAL and the design team have allowed for soil bunds which will be planted along with a two meter solid gate to mitigate the noise.

The proposed roundabout would not cope with Fieldday traffic. Discussions with Mystery Creek Event Centre, WRAL and the design team and HPC have resolved our concern.

Additional bunding has been agreed with WRAL to mitigate noise from the Eastern boundary where the cycleway will pass.

Given that our concerns have been addressed by the applicant The Hamilton Pistol Club wish to support the application of Private Plan 10 of the Waipa District Plan.
