Submission on a Notified Resource Consent Application

Form 13

Sections 41D, 95A, 95B, 95C, 96, 127(3) and 234(4),
Resource Management Act 1991

This is a submission on:

APPLICANT'S NAME: Global Contracting Solutions Limited

LOCATION: 401 Racecourse Road, Te Awamutu

I ~~am~~/am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I am/am not directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

Is the complete application by Global Contracting Solutions Limited

Support parts or all of ☐ **Oppose** parts or all of ☒ **are neutral** parts or all of ☐
include—

- *the reasons for your views.*

This applications location is inappropriate use of land that is adjacent to Residential homes, Schools and Learning centres Access to the site via Racecourse road, with Vehicles (heavy) 24/7 is in conflict with the Waipa District Plan & growth strategy for our Community.

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

Decline the application

I wish (or do not wish) to be heard in support of my submission.

- ☒ I do wish to be heard in support of my submission
(this means that you will speak at the hearing)
- ☐ I do not wish to be heard in support of my submission
(this means that you will not be advised of the date of the hearing and will not speak at the hearing)
- ☒ If others make a similar submission I will consider presenting a joint case with them at the hearing.

You must tick one of the boxes above, otherwise it will be deemed that you do not wish to be heard and we will not advise you of the date of the hearing.

- ☒ I have served a copy of my submission on the applicant.
(this is required by section 96(6) (b) of the Resource Management Act 1991)

I ~~request~~/do not request*, pursuant to section 100A of the Act, that you delegate your functions, powers, and duties to hear and decide the application to one or more hearings commissioners who are not members of the local authority.

Signature of submitter: A Riggs
(or person authorised to sign on behalf of submitter) (A signature is not required if you make your submission by electronic means.)

Date: 13/10/23

Contact person: Amanda Riggs
(name and designation, if applicant)

Postal address: 123 Wynyard Street, Te Awamutu, 3800
(or alternative method of service under section 352 of the Act):

Notes to submitter

If you are making a submission to the Environmental Protection Authority, you should use form 16B.

The closing date for serving submissions on the consent authority is the 20th working day after the date on which public or limited notification is given. If the application is subject to limited notification, the consent authority may adopt an earlier closing date for submissions once the consent authority receives responses from all affected persons.

If you are a trade competitor, your right to make a submission may be limited by the trade competition provisions in Part 11A of the Resource Management Act 1991.

You must serve a copy of your submission on the applicant as soon as reasonably practicable after you have served your submission on the consent authority.

If you make your submission in hard copy please deliver to Waipa District Council, 101 Bank Street, Te Awamutu or 23 Wilson Street, Cambridge or post to Private Bag 2402, Te Awamutu 3840

If you make your submission by electronic means, a signature is not required. Electronic submissions on resource consent applications must be directed to submissions@waipadc.govt.nz.

If you make a request under section 100A of the Resource Management Act 1991, you must do so in writing no later than 5 working days after the close of submissions and you may be liable to meet or contribute to the costs of the hearings commissioner or commissioners. You may not make a request under section 100A of the Resource Management Act 1991 in relation to an application for a coastal permit to carry out an activity that a regional coastal plan describes as a restricted coastal activity.

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

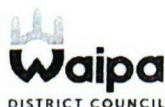

- it is frivolous or vexatious:
- it discloses no reasonable or relevant case:
- it would be an abuse of the hearing process to allow the submission (or the part) to be taken further:
- it contains offensive language:
- it is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

Privacy information

The information you have provided on this form is required so that your submission can be processed under the RMA. The information will be stored on a public register and held by the Council, and may also be made available to the public on the Council's website. In addition, any on-going communications between you and Council will be held at Council's offices and may also be accessed upon request by a third party. Access to this information is administered in accordance with the Local Government Official Information and Meetings Act 1987 and the Privacy Act 1993. If you have any concerns about this, please discuss with a Council Planner prior to lodging your submission.

The information you have provided on this form is required so that your submission can be processed under the RMA. The information will be stored on a public register and held by the Council, and may also be made available to the public on the Council's website. In addition, any on-going communications between you and Council will be held at Council's offices and may also be accessed upon request by a third party. Access to this information is administered in accordance with the Local Government Official Information and Meetings Act 1987 and the Privacy Act 1993. If you have any concerns about this, please discuss with a Council Planner prior to lodging your submission.

Submission on a Notified Resource Consent Application

Form 13

Sections 41D, 95A, 95B, 95C, 96, 127(3) and 234(4),
Resource Management Act 1991

This is a submission on:

APPLICANT'S NAME: GLOBAL CONTRACTING SOLUTIONS LIMITED

LOCATION: 401 RACECOURSE ROAD, TE AWAMUTU

I am not a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I am not directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

ALL OF THE APPLICATION.

My submission is:

Support parts or all of ☐ **Oppose** all of ☒ **are neutral** parts or all of ☐
include— the reasons for your views.

MY REASONS FOR OPPOSING THIS APPLICATION ARE ATTACHED TO THIS SUBMISSION (I AM SUBMITTING TO WAIPA DISTRICT COUNCIL AND TO WAIKATO REGIONAL COUNCIL).

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

TO DECLINE THE APPLICATION FOR REASONS PRESENTED IN THE ATTACHMENT.

I wish (or do not wish) to be heard in support of my submission.

- ☒ I do wish to be heard in support of my submission
(this means that you will speak at the hearing)
- ☐ I do not wish to be heard in support of my submission
(this means that you will not be advised of the date of the hearing and will not speak at the hearing)
- ☐ If others make a similar submission I will consider presenting a joint case with them at the hearing.

You must tick one of the boxes above, otherwise it will be deemed that you do not wish to be heard and we will not advise you of the date of the hearing.

- ☒ I have served a copy of my submission on the applicant.
(this is required by section 96(6) (b) of the Resource Management Act 1991)

I do not request, pursuant to section 100A of the Act, that you delegate your functions, powers, and duties to hear and decide the application to one or more hearings commissioners who are not members of the local authority.

Signature of submitter: **NOELEEN ROSS**

(or person authorised to sign on behalf of submitter) (A signature is not required if you make your submission by electronic means.)

Date: **8TH OF OCTOBER 2023**

Contact person:

NOELEEN ROSS

(name and designation, if applicant)

Postal address: **114 GEORGE MELROSE DRIVE, TE AWAMUTU 3800**

(or alternative method of service under section 352 of the Act):

Notes to submitter

If you are making a submission to the Environmental Protection Authority, you should use form 16B.

The closing date for serving submissions on the consent authority is the 20th working day after the date on which public or limited notification is given. If the application is subject to limited notification, the consent authority may adopt an earlier closing date for submissions once the consent authority receives responses from all affected persons.

If you are a trade competitor, your right to make a submission may be limited by the trade competition provisions in Part 11A of the Resource Management Act 1991.

You must serve a copy of your submission on the applicant as soon as reasonably practicable after you have served your submission on the consent authority.

If you make your submission in hard copy please deliver to Waipa District Council, 101 Bank Street, Te Awamutu or 23 Wilson Street, Cambridge or post to Private Bag 2402, Te Awamutu 3840

If you make your submission by electronic means, a signature is not required. Electronic submissions on resource consent applications must be directed to submissions@waipadc.govt.nz.

If you make a request under section 100A of the Resource Management Act 1991, you must do so in writing no later than 5 working days after the close of submissions and you may be liable to meet or contribute to the costs of the hearings commissioner or commissioners. You may not make a request under section 100A of the Resource Management Act 1991 in relation to an application for a coastal permit to carry out an activity that a regional coastal plan describes as a restricted coastal activity.

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- it is frivolous or vexatious;
- it discloses no reasonable or relevant case;
- it would be an abuse of the hearing process to allow the submission (or the part) to be taken further;
- it contains offensive language;
- it is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

Privacy information

The information you have provided on this form is required so that your submission can be processed under the RMA. The information will be stored on a public register and held by the Council, and may also be made available to the public on the Council's website. In addition, any on-going communications between you and Council will be held at Council's offices and may also be accessed upon request by a third party. Access to this information is administered in accordance with the Local Government Official Information and Meetings Act 1987 and the Privacy Act 1993. If you have any concerns about this, please discuss with a Council Planner prior to lodging your submission.

Kia ora, I have been a resident of Te Awamutu since 2017 having worked in the town for 23 years prior to relocating into the township. I take pride in the connections within this community and value the clean, green rural aspects that exist within a town of this size and the surroundings.

My home is about 1 km from the racecourse, I will be directly exposed to, and at risk from multiple significant impacts if the incineration plant is not stopped now!

My reasons for opposing this application are summarised below;

- **Financial** - My asset will reduce in value and will also potentially lose its market appeal. This is the sum of my life's work, and my single capital investment available for my future security and well being.

- **Health** - My own, and by association, my whanau's health will be directly affected by exposure to toxic chemicals via land, water and air. International research has proven that fly ash containing dioxins, micro plastics, heavy metals and other contaminants are known to bio accumulate in the body.

My children and grandchildren regularly visit and enjoy Te Awamutu's commercial, recreational, and outdoor facilities and will also be exposed over a period of time to these same toxic waste by-products. We have seen this evidenced by health implications for those survivors who were exposed to the World Trade Centre fires.

- **Noise** – Where is the evidence and data to prove that your acoustic barriers will prevent noise from this incineration plant? If it is operating 24 hours/day there will be noise disruption to property owners who live near.

- **Traffic** – to feed the incineration plant, significant additional traffic increases along racecourse road (estimated 180 traffic movements including heavy vehicles /day extra) will increase noise and air pollution to residents and will also damage existing roading infrastructure and a safety risk to pedestrians and other traffic who already use this road, and at the intersections to either end of racecourse road.

As residential property owners we did not purchase properties here expecting we would suddenly need tolerate this increase.

- **Air, water and land** – General statements are not evidence of modelling which proves that the environment will be safe and protected from toxic waste. This should include worst case scenarios with valid, local and scientific evidence. Not every day is a perfect day!

The property is designated as a High-Risk Flood Zone, we saw and experienced the effects of climate change, when Cyclone Gabriel devastated Napier and Gisborne earlier this year. An event like this in our area will have a similar effect on the incineration facility should water levels rise and as waste is washed into the waterways!

- **Designation:** It is not reasonable or appropriate to allow heavy industrial activity in a location that has been designated as 'specialised industrial area' and residential. The incineration plant does not align with the designation and should not be permitted to proceed. This application is a direct contradiction to the intentions of the Waipa District Plan and Growth Strategy.

How can Waipa District Council (or New Zealand's) environmental and climate change stance, which has been gathering momentum and made so much progress recently, permit

this type of dirty fossil fuelled facility here (or anywhere in New Zealand) when there are far safer alternatives available?

- **Company:** Global Contracting Solutions Ltd's application is light on detail or actual methodology and practice – this is a flawed application that must not be permitted to go any further.

NZ does not have enough laws, regulations, or processes in place to protect people and communities from this chemical risk.

The company is inexperienced and known to be greenwashing with their proposal. Advice from similar overseas communities is - if your country doesn't already have these, just Don't Go There!

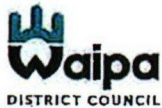

- **Past and future:** Alternative 'better' recycling options are available that are operating far more positively with less toxic emissions and are a lower RISK to health, climate change and fewer environmental impacts than incineration.

Overseas and NZ focus has been to reduce environmental impacts, carbon emissions and resultant harm to people and biodiversity (fauna and flora).

If this is not stopped now Global Contracting Solutions Ltd will effectively be turning back the clock at least 20 years and any positive progress will be 'undone' – It has been scientifically proven that people's health will suffer if this incineration facility goes ahead as the come with more 'cost' than 'benefit'.

The town operates with only a volunteer fire brigade, how could a hazardous explosion/fire ever be dealt with? This has recently been seen at Doral with the Covanta waste incinerator fire, which burned out of control for 3 weeks the report found dangerous concentrations of toxic pollutants and chemical contaminants at the facility and across Doral. Once a persons health is exposed in this way many never fully recover.

IF IT IS BUILT, THERE WILL NEVER BE A CHANCE TO 'TURN BACK THE CLOCK' ON THE DECISION!

Submission on a Notified Resource Consent Application

Form 13

Sections 41D, 95A, 95B, 95C, 96, 127(3) and 234(4),
Resource Management Act 1991

This is a submission on:

APPLICANT'S NAME: Global Contracting Solutions Limited

LOCATION: 401 Racecourse Road, Te Awamutu

I am/am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I am/am not directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

My submission is:

Support parts or all of ☒ **Oppose** parts or all of ☐ **are neutral** parts or all of ☐
include—

- the reasons for your views.

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

I wish (or do not wish) to be heard in support of my submission.

- ☐ I do wish to be heard in support of my submission
(this means that you will speak at the hearing)
- ☒ I do not wish to be heard in support of my submission
(this means that you will not be advised of the date of the hearing and will not speak at the hearing)
- ☐ If others make a similar submission I will consider presenting a joint case with them at the hearing.

You must tick one of the boxes above, otherwise it will be deemed that you do not wish to be heard and we will not advise you of the date of the hearing.

- ☒ I have served a copy of my submission on the applicant.
(this is required by section 96(6) (b) of the Resource Management Act 1991)

I request/do not request*, pursuant to section 100A of the Act, that you delegate your functions, powers, and duties to hear and decide the application to one or more hearings commissioners who are not members of the local authority.

Signature of submitter: Reed
(or person authorised to sign on behalf of submitter) (A signature is not required if you make your submission by electronic means.)

Date: 13-10-23 Contact person: Raewyn Reed
(name and designation, if applicant)

Postal address: 1/223 Taylor Ave, Te Awamutu.
(or alternative method of service under section 352 of the Act):

Notes to submitter

If you are making a submission to the Environmental Protection Authority, you should use form 16B.

The closing date for serving submissions on the consent authority is the 20th working day after the date on which public or limited notification is given. If the application is subject to limited notification, the consent authority may adopt an earlier closing date for submissions once the consent authority receives responses from all affected persons.

If you are a trade competitor, your right to make a submission may be limited by the trade competition provisions in Part 11A of the Resource Management Act 1991.

You must serve a copy of your submission on the applicant as soon as reasonably practicable after you have served your submission on the consent authority.

If you make your submission in hard copy please deliver to Waipa District Council, 101 Bank Street, Te Awamutu or 23 Wilson Street, Cambridge or post to Private Bag 2402, Te Awamutu 3840

If you make your submission by electronic means, a signature is not required. Electronic submissions on resource consent applications must be directed to submissions@wairarapa.govt.nz.

If you make a request under section 100A of the Resource Management Act 1991, you must do so in writing no later than 5 working days after the close of submissions and you may be liable to meet or contribute to the costs of the hearings commissioner or commissioners. You may not make a request under section 100A of the Resource Management Act 1991 in relation to an application for a coastal permit to carry out an activity that a regional coastal plan describes as a restricted coastal activity.

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- it is frivolous or vexatious;
- it discloses no reasonable or relevant case;
- it would be an abuse of the hearing process to allow the submission (or the part) to be taken further;
- it contains offensive language;
- it is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

Subject: External Sender: Proposed Incinerator Racecourse Road Te Awamutu
Importance: Normal
Categories: Donna

CYBER SECURITY WARNING: This email is from an external source - be careful of attachments and links. Please follow the Cybersecurity Policy and report suspicious emails to Servicedesk

I wish to make the following submission regarding the above proposed incinerator for Racecourse Road Te Awamutu.

I was born in Te Awamutu and have lived back here for the last 30 years. I have always been very proud of my little town and very happy so far with all the improvements and advancements made.

I DO NOT AGREE with this proposal for the following reason:

I live close to Racecourse Road and use this road every day.

I also walk the block every morning returning along Racecourse Road.

There is a lovely child care centre on this road.

The number of trucks/trailer units using this road is mind boggling. Along with the noise of the trucks - the damage to the roads will be immense. We know how long the Council take to repair roads.

I am worried about the toxic air emissions, the noise from the incinerator and odour into the atmosphere from the burning of hundreds of tonnes of tyres and plastic waste.

My husband and I spend a number of hours each day outside in our garden.

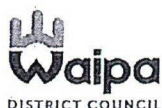

Toxic air emissions could also travel to and affect our vegetable gardens.

The price of residential properties could be impacted.

I wonder why this company has chosen a small populated town to build this Incinerator - can it not find land out and away from any populated area.

I therefore wish to provide my above submission.

TA Resident.

Submission on a Notified Resource Consent Application

Form 13

Sections 41D, 95A, 95B, 95C, 96, 127(3) and 234(4),
Resource Management Act 1991

This is a submission on:

APPLICANT'S NAME: Global Contracting Solutions Limited

LOCATION: 401 Racecourse Road, Te Awamutu

I am/am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I am/am not directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

All of the applications

(see attached)

My submission is:

Support parts or all of ☐ **Oppose** parts or all of ☒ **are neutral** parts or all of ☐
include—

- the reasons for your views.

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

I want the application declined

I wish (or do not wish) to be heard in support of my submission.

- ☒ I do wish to be heard in support of my submission
(this means that you will speak at the hearing)
- ☐ I do not wish to be heard in support of my submission
(this means that you will not be advised of the date of the hearing and will not speak at the hearing)
- ☐ If others make a similar submission I will consider presenting a joint case with them at the hearing.

You must tick one of the boxes above, otherwise it will be deemed that you do not wish to be heard and we will not advise you of the date of the hearing.

- ☒ I have served a copy of my submission on the applicant.
(this is required by section 96(6) (b) of the Resource Management Act 1991)

I request/do not request*, pursuant to section 100A of the Act, that you delegate your functions, powers, and duties to hear and decide the application to one or more hearings commissioners who are not members of the local authority.

Signature of submitter: _____
(or person authorised to sign on behalf of submitter) (A signature is not required if you make your submission by electronic means.)

Date: _____ Contact person: Aloria Rako
(name and designation, if applicant)

Postal address: _____
(or alternative method of service under section 352 of the Act):

Notes to submitter

If you are making a submission to the Environmental Protection Authority, you should use form 16B.

The closing date for serving submissions on the consent authority is the 20th working day after the date on which public or limited notification is given. If the application is subject to limited notification, the consent authority may adopt an earlier closing date for submissions once the consent authority receives responses from all affected persons.

If you are a trade competitor, your right to make a submission may be limited by the trade competition provisions in Part 11A of the Resource Management Act 1991.

You must serve a copy of your submission on the applicant as soon as reasonably practicable after you have served your submission on the consent authority.

If you make your submission in hard copy please deliver to Waipa District Council, 101 Bank Street, Te Awamutu or 23 Wilson Street, Cambridge or post to Private Bag 2402, Te Awamutu 3840

If you make your submission by electronic means, a signature is not required. Electronic submissions on resource consent applications must be directed to submissions@waipadc.govt.nz.

If you make a request under section 100A of the Resource Management Act 1991, you must do so in writing no later than 5 working days after the close of submissions and you may be liable to meet or contribute to the costs of the hearings commissioner or commissioners. You may not make a request under section 100A of the Resource Management Act 1991 in relation to an application for a coastal permit to carry out an activity that a regional coastal plan describes as a restricted coastal activity.

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- it is frivolous or vexatious:
- it discloses no reasonable or relevant case:
- it would be an abuse of the hearing process to allow the submission (or the part) to be taken further:
- it contains offensive language:
- it is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

Privacy information

The information you have provided on this form is required so that your submission can be processed under the RMA. The information will be stored on a public register and held by the Council, and may also be made available to the public on the Council's website. In addition, any on-going communications between you and Council will be held at Council's offices and may also be accessed upon request by a third party. Access to this information is administered in accordance with the Local Government Official Information and Meetings Act 1987 and the Privacy Act 1993. If you have any concerns about this, please discuss with a Council Planner prior to lodging your submission.

Submission on a Notified Resource Consent Application

Form 13

Sections 41D, 95A, 95B, 95C, 96, 127(3) and 234(4),
Resource Management Act 1991

This is a submission on:

APPLICANT'S NAME: Global Contracting Solutions Limited

LOCATION: 401 Racecourse Road, Te Awamutu

I ~~am~~ am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I ~~am~~am not directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

My submission relates to the whole application. I oppose this application and I want the Waipa District Council to decline this application for the reasons stated below:

There is not enough research or measures in place to ensure the safety of our environment or community. A similar, larger, proposal for a waste-to-energy incinerator in Waimate, South Canterbury has been "called in" by the Minister for the Environment in part because this is new technology with national implications.

I have serious concerns about the air, water and land pollution and emissions. The incinerator will produce dioxins that are cancer-causing even in extremely low levels. These will be emitted into the air, and will settle on the land and in the water and no assessment of land contamination is included in the application. Stormwater from the site will be discharged into the Mangapiko Stream, which will likely be contaminated with heavy metals and dioxin. In the Netherlands, research conducted indicated that the high dioxin output from waste incinerators could also be responsible for contamination of cow's milk and meat. This would be very detrimental for our small farming community.

I also have serious concerns about the health of those living in our community, as there is no human health assessment in this proposal. As mentioned above the incinerator will emit cancer-causing dioxins and other pollutants, that studies have shown have direct links to non-Hodgkins lymphoma, increases in risks of miscarriages and pre-term delivery of babies. Exposure to particulate matter will also impact people with respiratory problems, such as asthma, cardiovascular issues, the elderly and children.

I really hope the Waipa District Council will put the interests of the community and environment first by declining this application.

My submission is:

Support parts or all of ☐ **Oppose** parts or all of ☒ **are neutral** parts or all of ☐
include—

- the reasons for your views.

I work in healthcare, specifically Cancer care and see how prevalent Cancer is in our region and the impact it has on families and communities every week. It is not something we want to see more of in our region and we need to do everything we can to ensure we protect our environment. I also have children and extended family and friends that live in the community and do not support any projects that risk affecting

their health. I love spending time outdoors in the environment and believe we should all be working together to look after it, and ideally reverse the damage we have already caused to the planet. We should not be looking for ways to release more pollutants into the atmosphere.

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

Decline Application _____

I wish (or do not wish) to be heard in support of my submission.

- ☒ I do wish to be heard in support of my submission
(this means that you will speak at the hearing)
- ☐ I do not wish to be heard in support of my submission
(this means that you will not be advised of the date of the hearing and will not speak at the hearing)
- ☒ If others make a similar submission I will consider presenting a joint case with them at the hearing.

You must tick one of the boxes above, otherwise it will be deemed that you do not wish to be heard and we will not advise you of the date of the hearing.

- ☒ I have served a copy of my submission on the applicant.

(or alternative method of service under section 352 of the Act):

Notes to submitter

If you are making a submission to the Environmental Protection Authority, you should use form 16B.

The closing date for serving submissions on the consent authority is the 20th working day after the date on which public or limited notification is given. If the application is subject to limited notification, the consent authority may adopt an earlier closing date for submissions once the consent authority receives responses from all affected persons.

If you are a trade competitor, your right to make a submission may be limited by the trade competition provisions in Part 11A of the Resource Management Act 1991.

You must serve a copy of your submission on the applicant as soon as reasonably practicable after you have served your submission on the consent authority.

If you make your submission in hard copy please deliver to Waipa District Council, 101 Bank Street, Te Awamutu or 23 Wilson Street, Cambridge or post to Private Bag 2402, Te Awamutu 3840

If you make your submission by electronic means, a signature is not required. Electronic submissions on resource consent applications must be directed to submissions@waipadc.govt.nz.

If you make a request under section 100A of the Resource Management Act 1991, you must do so in writing no later than 5 working days after the close of submissions and you may be liable to meet or contribute to the costs of the hearings commissioner or commissioners. You may not make a request under section 100A of the Resource Management Act 1991 in relation to an application for a coastal permit to carry out an activity that a regional coastal plan describes as a restricted coastal activity.

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- it is frivolous or vexatious:
- it discloses no reasonable or relevant case:
- it would be an abuse of the hearing process to allow the submission (or the part) to be taken further:
- it contains offensive language:
- it is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

Privacy information

The information you have provided on this form is required so that your submission can be processed under the RMA. The information will be stored on a public register and held by the Council, and may also be made available to the public on the Council's website. In addition, any on-going communications between you and Council will be held at Council's offices and may also be accessed upon request by a third party. Access to this information is administered in accordance with the Local Government Official Information and Meetings Act 1987 and the Privacy Act 1993. If you have any concerns about this, please discuss with a Council Planner prior to lodging your submission.

This is a submission on:

APPLICANT'S NAME: Global Contracting Solutions Limited

LOCATION: 401 Racecourse Road, Te Awamutu

I /am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I /am not directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

My submission relates to the whole application. I oppose this application and I want the Waipa District Council to decline this application for the reasons stated below:

There is not enough research or measures in place to ensure the safety of our environment or community. A similar, larger, proposal for a waste-to-energy incinerator in Waimate, South Canterbury has been "called in" by the Minister for the Environment in part because this is new technology with national implications.

I have serious concerns about the air, water and land pollution and emissions. The incinerator will produce dioxins that are cancer-causing even in extremely low levels. These will be emitted into the air, and will settle on the land and in the water and no assessment of land contamination is included in the application. Stormwater from the site will be discharged into the Mangapiko Stream, which will likely be contaminated with heavy metals and dioxin. In the Netherlands, research conducted indicated that the high dioxin output from waste incinerators could also be responsible for contamination of cow's milk and meat. This would be very detrimental for our small farming community.

I also have serious concerns about the health of those living in our community, as there is no human health assessment in this proposal. As mentioned above the incinerator will emit cancer-causing dioxins and other pollutants, that studies have shown have direct links to non-Hodgkins lymphoma, increases in risks of miscarriages and pre-term delivery of babies. Exposure to particulate matter will also impact people with respiratory problems, such as asthma, cardiovascular issues, the elderly and children.

I really hope the Waipa District Council will put the interests of the community and environment first by declining this application.

My submission is:

Support parts or all of ☐ **Oppose** parts or all of ☒ **are neutral** parts or all of ☐
include—

- the reasons for your views.

My Mum works in healthcare, specifically Cancer care and sees how prevalent Cancer is in our region and the impact it has on families and communities every week. It is not something we want to see more of in our region and we need to do everything we can to ensure we protect our environment. We also have extended family and friends that live in the community and do not support any projects that risk affecting

Sections 41D, 95A, 95B, 95C, 96, 127(3) and 234(4),
Resource Management Act 1991

their health. I love spending time outdoors in the environment and believe we should all be working together to look after it, and ideally reverse the damage we have already caused to the planet. We should not be looking for ways to release more pollutants into the atmosphere.

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

Decline Application _____

I wish (or do not wish) to be heard in support of my submission.

- ☐ I do wish to be heard in support of my submission
(this means that you will speak at the hearing)
- ☐ I do not wish to be heard in support of my submission
(this means that you will not be advised of the date of the hearing and will not speak at the hearing)
- ☐ If others make a similar submission I will consider presenting a joint case with them at the hearing.

You must tick one of the boxes above, otherwise it will be deemed that you do not wish to be heard and we will not advise you of the date of the hearing.

- ☐ I have served a copy of my submission on the applicant.
(this is required by section 96(6) (b) of the Resource Management Act 1991)

By emailing copies of form to Richard.falconer@terrargroup.co.nz

I ☐ /do not request*, pursuant to section 100A of the Act, that you delegate your functions, powers, and duties to hear and decide the application to one or more hearings commissioners who are not members of the local authority.

Signature of submitter: _____

(or person authorised to sign on behalf of submitter) (A signature is not required if you make your submission by electronic means.)

Date: 12/10/2023 Contact person: Kayla Rowe
(name and designation, if applicant)

Postal address: 365 Douglas Ave Te Awamutu
(or alternative method of service under section 352 of the Act):

Notes to submitter

If you are making a submission to the Environmental Protection Authority, you should use form 16B.

The closing date for serving submissions on the consent authority is the 20th working day after the date on which public or limited notification is given. If the application is subject to limited notification, the consent authority may adopt an earlier closing date for submissions once the consent authority receives responses from all affected persons.

If you are a trade competitor, your right to make a submission may be limited by the trade competition provisions in Part 11A of the Resource Management Act 1991.

You must serve a copy of your submission on the applicant as soon as reasonably practicable after you have served your submission on the consent authority.

If you make your submission in hard copy please deliver to Waipa District Council, 101 Bank Street, Te Awamutu or 23 Wilson Street, Cambridge or post to Private Bag 2402, Te Awamutu 3840

If you make your submission by electronic means, a signature is not required. Electronic submissions on resource consent applications must be directed to submissions@waipadc.govt.nz.

If you make a request under section 100A of the Resource Management Act 1991, you must do so in writing no later than 5 working days after the close of submissions and you may be liable to meet or contribute to the costs of the hearings commissioner or commissioners. You may not make a request under section 100A of the Resource Management Act 1991 in relation to an application for a coastal permit to carry out an activity that a regional coastal plan describes as a restricted coastal activity.

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- it is frivolous or vexatious:
- it discloses no reasonable or relevant case:
- it would be an abuse of the hearing process to allow the submission (or the part) to be taken further:
- it contains offensive language:
- it is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

Waipā District Council
Private Bag 2402
Te Awamutu 3840

10th October 2023

To whom it may concern at the Waipa District Council,
In this letter, I will present my comments opposing the proposed resource consent for the *refuse-to-energy facility* in Te Awamutu to the Waipa District Council. The personal views mentioned in this comment are strictly personal and are not affiliated with the University of Waikato and Swampfrog Environmental and Tree Consultants. Furthermore, I have no competing financial interests and/or relationships.

In my opinion, the resource consent for the refuse-to-energy facility in Te Awamutu should be denied based on the heavy farming interests of the area, the proximity to an early childhood facility and school. I recommend the dismissal of this resource consent due to the environmental and health impacts that could drastically affect the community.

Summary:

Global Contracting Solutions have applied to the Waipā District Council for resource consent to build waste-to-energy facility in Te Awamutu at 401 Racecourse Road. This facility would incinerate 150,000 tonnes of waste annually, from which the steam will be used to generate power. The proposed waste types are approximately: 10% of flock, 20% of end of life tyres, 45 to 50% of municipal solid waste, and 20% plastics waste. The facility is expected to provide power for 14,000 households through the generation of 15 megawatts of energy. Along with the resource consent to build the facility, Global Contracting Solutions are also seeking a secondary resource consent from the Waikato Regional Council to release contaminants into the air. Furthermore, consent under the National Environmental Standard for Air Quality. These proposals will be considered by both councils on the 13th of October 2023.

Comments:

This plant would be the first of its kind in New Zealand. Europe is currently leading in waste-to-energy disposal of waste. The European Commission have five main waste-to-energy procedures. Despite this the European union is beginning to shift away from methods involving incineration in order to meet carbon emissions targets (European Commission, 2019). The amount of greenhouse gases produced by an incineratory waste-to-energy plant is ultimately less than produced by landfills (Chen & Liu 2021). However, there are a variety of different waste-to-energy technologies which can produce different levels of greenhouse gas (Yi, et al., 2018). The impacts of waste incineration on human health have been studied; however, waste-to-energy technologies and their implications for human health has very little literature (Cole-Hunter, et al., 2020).

One of the key reasons I am opposed to the refuse-to-waste facility in Te Awamutu is the location. The proposed refuse-to-energy facility borders the Mangapiko stream and is in proximity to a residential area, a Kohanga Reo (Māori immersion preschool) and Te Wananga o Aotearoa facility. The toxins and greenhouse gases that will be generated and released from the facility. The proposed plant to use a variety of waste, including municipal solid waste, plastics, tyres, and flock. The proposed waste-to-energy facility Under the National Environmental Standard for Air Quality, it is prohibited to burn tyres because of the large quantities of toxic air pollutants and oils which contaminate soils and waterways (MWH New Zealand Ltd, 2004). Emissions produced from the incineration of this waste is likely to include a large variety of chemicals (He & Lin, 2019). The emission of dioxins and furans like dibenzo-p-dioxin and dibenzofurans are common by-product of the incineration of waste. These chemicals are known carcinogens and long-term may increase cancer rates in the Te Awamutu area. In France, an increase in various cancers in the catchment area of the Ariane waste incinerator facility between 2005 and 2009. Furthermore, between 2010 and 2014, high frequencies of myeloma and lung cancer persisted in men (Barjoan, et al., 2020).

Research from the Netherlands concluded dairy products contained elevated levels of dioxins when in the vicinity of waste incinerators (Liem, et al., 1991). Furthermore, a Fonterra factory is also on the opposite side of the Mangapiko stream and the large dairy farming presence in Te Awamutu, there is a highly likelihood of dioxin contamination in dairy products.

The proposed site is zoned industrially; however, there are particular areas which require management, including the Mangapiko stream and a specialised dairy industrial area policy overlay. The drainage of the proposed site follows the natural slope of the land towards Mangapiko stream, and the area is a known floodplain (Waipa District Council, 2023). While the facility will not discharge water into the stream, soluble gases emitted from the plant may impact the stream and the water quality of the stream.

Table 1: Air Pollutants from Waste Incineration (Negri, et al., 2020)

Inorganic emissions	Organic emissions
Carbon Oxide (CO)	Volatile organic compounds (VOCs)
Carbon Dioxide (CO ₂)	Hydrocarbons
Sulphur Oxide (SOX)	Dioxins (polychlorinated dibenzo-p-dioxin and polychlorinated dibenzofuran)
Nitrogen Oxides (NOX)	Polychlorinated biphenyls (PCBs)
Products of incomplete combustion: silicates, inorganic ash, soot, metal elements and their salts and oxides	Polycyclic aromatic hydrocarbons (PAHs)
Butadiene	Particulate matter
Sulphur Dioxide	

The proposed area for the site is zoned for industrial use; however, it borders a current residential area. Excess noise can adversely impact human health in a multitude of ways including disturbances to sleep, cardiovascular functioning, and mental health. It may also

increase negative social behaviours and annoyance reactions to the noise (Wokekoro, 2020). The proposed plant will operate seven days a week and twenty-four hours a day. However, restrictions will be placed on the transport movements to mitigate traffic noise. Therefore, residents in the vicinity may experience some of these adverse effects of noise due to the constant operation of the facility and increased road noise. Noise may disproportionately impact the learning of Māori children due to the Kohanga Reo being nearby.

Additionally, residents of the Doral, Florida, complain of the smell generated from the Covanta waste-to-energy plant (Harris, 2022). Similar to the proposed plant, Covanta operates 24 hours a day, 7 days a week: however, representatives of the plant attribute the smell to the transport and storage of waste before entering the plant (Harris, 2022). A typical concern with waste disposal facilities located near residential areas is the odour and the impacts of odour on the nearby communities (Zhao, et al., 2015). The proposal acknowledges there is potential for significant amounts of odour to be produced and emitted into the surrounding community (Terra Consultants Limited, 2023).

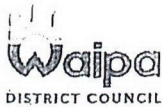

Conclusion:

The potential impacts on the environment and human health outweigh the benefits of this facility in this location. Increased noise pollution and toxic gas emissions could significantly affect the overall health of the surrounding area and disrupt a key economic activity in this area. Therefore, I strongly oppose the waste-to-energy facility at Racecourse Road in Te Awamutu.

Submission on a Notified Resource Consent Application

Form 15

Sections 41D, 95A, 95B, 95C, 96, 127(3) and 234(4),
Resource Management Act 1991

This is a submission on:

APPLICANT'S NAME: Global Contracting Solutions Limited

LOCATION: 401 Racecourse Road, Te Awamutu

I ~~am~~/am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I am/~~am not~~ directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

The entire application

My submission is:

Support parts or all of ☐ **Oppose** parts or all of ☒ **are neutral** parts or all of ☐
include—

- the reasons for your views.

POLLUTION IS UNACCEPTABLE.

T.A should not be the rubbish dump for regions outside T.A.

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

To decline the entire application

I wish (or do not wish) to be heard in support of my submission.

- ☒ I do wish to be heard in support of my submission
(this means that you will speak at the hearing)
- ☐ I do not wish to be heard in support of my submission
(this means that you will not be advised of the date of the hearing and will not speak at the hearing)
- ☒ If others make a similar submission I will consider presenting a joint case with them at the hearing.

You must tick one of the boxes above, otherwise it will be deemed that you do not wish to be heard and we will not advise you of the date of the hearing.

- ☒ I have served a copy of my submission on the applicant.
(this is required by section 96(6) (b) of the Resource Management Act 1991)

I ~~request~~/do not request*, pursuant to section 100A of the Act, that you delegate your functions, powers, and duties to hear and decide the application to one or more hearings commissioners who are not members of the local authority.

Signature of submitter: _____

(or person authorised to sign on behalf of submitter) (A signature is not required if you make your submission by electronic means.)

Notes to submitter

If you are making a submission to the Environmental Protection Authority, you should use form 16B.

The closing date for serving submissions on the consent authority is the 20th working day after the date on which public or limited notification is given. If the application is subject to limited notification, the consent authority may adopt an earlier closing date for submissions once the consent authority receives responses from all affected persons.

If you are a trade competitor, your right to make a submission may be limited by the trade competition provisions in Part 11A of the Resource Management Act 1991.

You must serve a copy of your submission on the applicant as soon as reasonably practicable after you have served your submission on the consent authority.

If you make your submission in hard copy please deliver to Waipa District Council, 101 Bank Street, Te Awamutu or 23 Wilson Street, Cambridge or post to Private Bag 2402, Te Awamutu 3840

If you make your submission by electronic means, a signature is not required. Electronic submissions on resource consent applications must be directed to submissions@waipadc.govt.nz.

If you make a request under section 100A of the Resource Management Act 1991, you must do so in writing no later than 5 working days after the close of submissions and you may be liable to meet or contribute to the costs of the hearings commissioner or commissioners. You may not make a request under section 100A of the Resource Management Act 1991 in relation to an application for a coastal permit to carry out an activity that a regional coastal plan describes as a restricted coastal activity.

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- it is frivolous or vexatious;
- it discloses no reasonable or relevant case;
- it would be an abuse of the hearing process to allow the submission (or the part) to be taken further;
- it contains offensive language;
- it is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

Privacy information

The information you have provided on this form is required so that your submission can be processed under the RMA. The information will be stored on a public register and held by the Council, and may also be made available to the public on the Council's website. In addition, any on-going communications between you and Council will be held at Council's offices and may also be accessed upon request by a third party. Access to this information is administered in accordance with the Local Government Official Information and Meetings Act 1987 and the Privacy Act 1993. If you have any concerns about this, please discuss with a Council Planner prior to lodging your submission.

Submission on a Notified Resource Consent Application

Form 13

Sections 41D, 95A, 95B, 95C, 96, 127(3) and 234(4),
Resource Management Act 1991

This is a submission on:

APPLICANT'S NAME: Global Contracting Solutions Limited

LOCATION: 401 Racecourse Road, Te Awamutu

I ~~am~~/am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I am/~~am not~~ directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

The environmental affect to Te Awamutu and its residents

My submission is:

Support parts or all of ☐ **Oppose** parts or all of ☒ **are neutral** parts or all of ☐

include—

- the reasons for your views.

The closeness to residential Homes, Te Awamutu College
Air Water and land Pollution & Emissions. Inappropriate land use
Flooding Climate Change Toxic byproducts Human Health.

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

Decline Application

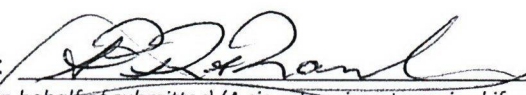

I wish (or do not wish) to be heard in support of my submission.

- ☐ I do wish to be heard in support of my submission
(this means that you will speak at the hearing)
- ☐ I do not wish to be heard in support of my submission
(this means that you will not be advised of the date of the hearing and will not speak at the hearing)
- ☐ If others make a similar submission I will consider presenting a joint case with them at the hearing.

You must tick one of the boxes above, otherwise it will be deemed that you do not wish to be heard and we will not advise you of the date of the hearing.

- ☐ I have served a copy of my submission on the applicant.
(this is required by section 96(6) (b) of the Resource Management Act 1991)

I ~~request~~/do not request*, pursuant to section 100A of the Act, that you delegate your functions, powers, and duties to hear and decide the application to one or more hearings commissioners who are not members of the local authority.

Signature of submitter: 
(or person authorised to sign on behalf of submitter) (A signature is not required if you make your submission by electronic means.)

Date: 12/10/2023 Contact person: Peter Raymond Ranby
(name and designation, if applicant)

Postal address: 178 Jackson Street Te Awamutu.
(or alternative method of service under section 352 of the Act):

Re: Global Contracting Solutions Ltd's 'The Waste Incineration Plant' application

I am writing to oppose the application to develop a Waste Incineration Plant in Te Awamutu. This letter is specifically in regards to Global Contracting Solutions Ltd's application. I am requesting that this application for the Waste Incineration Plant be declined. This letter is directed to the Waipa District Council and the Waikato Regional Council.

My reason for declining the application is that my Granddaughter attends a Day Care Centre which is 150 metres from the proposed incinerator. My daughter, son in law and granddaughter lives in Kihikihi and we spend a lot of time visiting and supporting their family. We spend a lot of time shopping and supporting their family in the Te Awamutu Area.

To follow are the reasons I oppose this application:

1. Health Issues to Residence

The incinerator is proposed in the Te Awamutu town boundaries in the middle of existing and future neighbourhoods. There are a large number of daycare and schools with approximately 1800 children within a 1.1km distance of the proposed incinerator. The children and the residence of greater Te Awamutu area will be subjected to being exposed to dangerous acid gases, toxic metals, dioxins released into the air. Children are extremely susceptible to the effects these pollutants, increasing the risk of respiratory problems, developmental issues, cancers and other health problems.

2. Pollution to Air, Water and Soil

Air pollution risk to Health, I have discussed in Item 1. The air pollution will also affect the human food chain with the spread of the toxins on to very productive land surrounding Te Awamutu, producing dairy and meat products for the locals and the wider NZ consumer and possibly export product. Toxins will also affect produce grown in the backyard gardens of Te Awamutu.

The proposed site for the incinerator is on a flood plain and is close to the Mangapiko Stream which flows through the heart of Waipa and out to the Waipa River then on to the Waikato River. Extreme flooding could cause hazardous substances to contaminate the waterways. The consent is also for the discharge of wastewater would discharge hazardous waste as well.

Toxic air pollution landing on residential and farmland would seep into the soil and be absorbed into the food chain.

For every 4 tonnes of waste burnt would create 1 tonne of very toxic ash which would have to be transported to a land fill.

The incinerator will be a massive contributor to climate change and will directly add tons of CO2 to the atmosphere when NZ should be reducing CO2 emissions.

3. Waste Converted to Energy

The consent is claiming waste will be turned into power. The amount of energy the incinerator would produce would be very little gain for the amount of waste it consumes. The amount of energy consumed in transporting the waste by trucks from areas around the country and also removing the toxic ash to landfill, will far out way any benefits of the energy produced, when we are supposed to be reducing emissions. The extra trucks will add more problems to the Waipa/Waikato roading infrastructure.

4. Recycling is the way of the Future

Waipa, Waikato and NZ need to embrace recycling and create better solutions to solving our ever-increasing waste problems instead of incinerating and creating new problems for Te Awamutu and the wider Waikato area which future generations will have to deal with. Recycling is the way forward for the future which would create more jobs for New Zealanders.

Global Contracting Solutions will not create many jobs. They will only create money for their shareholders at the demise of the health and the environment of the citizens of Te Awamutu and the greater Waipa and Waikato areas. If Global Contracting Solutions run into financial or environments problems Waipa Council and/or the Waikato Regional Council ratepayers may end up with costly bill and a decimated environment.

Global Contracting Solutions has no experience in building and operating an incinerator. Global Contracting Solutions experience is a scrap metal business which has a track record of violating resource consent conditions in their Hamilton operations.

I strongly urge you decline this proposal and prioritise the safety and wellbeing of the Te Awamutu community for now and future generations.

Kind Regards

Gillian Reid

If you have any concerns about this, please discuss with a Council Planner prior to lodging your submission.

Waikato Regional Council – Submission LU/0323/21

I am writing to express my strong opposition to the proposed construction of the waste incinerator at Racecourse Road. I am a Kihikihi resident, who has been a part of the Te Awamutu community for some time. Aside from being a concerned resident and community member, my primary reason for making this submission is my concerns regarding the location of the incinerator and its proximity to school and childcare facilities, as my 14-month-old daughter attends The Barnyard, early childhood centre, located only 150 metres from the proposed incineration site.

I believe that the incinerator is 'untested' technology, as demonstrated by the fact that Aotearoa New Zealand currently has **no** municipal solid waste (MSW) incinerators. The concerns surrounding such proposals are reflected in the fact that a similar, larger, proposal for a waste-to-energy incinerator in Waimate, South Canterbury has been "called in" by the Minister for the Environment in part because this is new technology with national implications. The small Te Awamutu community does not want to be a testing ground for this new 'untested' technology. It is very concerning that Global Contracting Solutions does not have any experience of operation in waste incineration. It is a scrap metal business. However, Global Contracting Solutions do have a history of violating resource consent conditions in their Hamilton operations, which I believe poses a significant risk to the wider Te Awamutu community.

The cultural impact of this proposal is of concern, with no formal Cultural Impact Assessment being completed as part of the application. Despite it being essential that fully informed consent from Iwi and Hapū must be part of this proposal including clear disclosure of human health and environmental impacts, this has not occurred. Significant work has already occurred in creating Taiea te Taiao to promote an ecological corridor to link Maungatautari and Pirongia te aroaro o Kahu. This work will reconnect these maunga/mountains with biodiversity plantings, which will enhance native species present, transform iwi connections to the Mangapiko stream, and ultimately improve water quality. An incinerator will undermine these efforts.

The air, water, land pollution and emissions that will be created by the incinerator would have significant impacts for our district and community. It is proven that the incinerator will result in dioxins that have been proven to cause cancer and other serious health problems. Dioxins 'bio-accumulate', which means that they build up over time in the fat tissues of humans and animals, creating health issues over time and impacting our agricultural industry. Furthermore, there is no assessment of land contamination in the application. Research internationally demonstrates that the land surrounding incinerators can be extensively contaminated with heavy metals, microplastics and other toxic emissions such as dioxin. It is concerning that storm water from the site will be discharged into the Mangapiko Stream. This storm water is likely to be contaminated with heavy metals, dioxin and other substances. One of the emissions from burning tyres/tyre derived fuel is zinc oxide which is highly toxic to aquatic life. The incinerator's filtration systems and settlement ponds do not eliminate all of the toxic products meaning these will make their way into the waterways, particularly the Mangapiko river. In addition, the huge earthworks involved in the project will impact wellbeing of the river.

The 'Specialised Dairy Industrial area' that the incinerator is designated for means that the proposed site is unsuitable for a waste incinerator. It is not reasonable or appropriate for a large scale waste incinerator to be operating next to a milk production facility. The proposed site is not identified as an area for industrial development in the District plan. The proposed location of a heavy industrial operation immediately next to existing and planned residential housing, schools, early childhood education centres and food businesses is not appropriate and conflicts with the intentions of the Waipā District Plan and Growth Strategy for the

community. The close proximity of the proposed site to housing and schools increases the risk of serious health impacts for our community and tamariki – One early childhood centre is only 150m from the proposed site.

Most of the proposed site is designated a high risk flood plain. Allowing the river the ability to accommodate severe rainfall events protects infrastructure. The incinerator buildings will increase the risk of flooding to the Fonterra factory and housing on factory road. The company are proposing that it develop the buildings lower than existing requirements, further increasing the risk to the surrounding community.

The incinerator is not an effective method of managing waste. The method of non-renewable energy from waste works against national efforts to decarbonise the energy sector. Therefore, making the incinerator a major contributor to climate change. The incinerator produces 23 tonnes/day of toxic ash, which has to be landfilled. There is no risk assessment of the possibility of fire or explosion despite the storage of hazardous materials and highly flammable feedstock.

This is not a proposal for the benefit of the Waipa community. Almost all of the waste for the facility will need to be transported from outside the district. At this stage, it is impossible to know what hazards, toxins and the resulting risks will be, while the inclusion of 35,058 tonnes of plastic (as well as a considerable portion of MSW that includes plastic) does not align with the recently released National Plastics Action Plan for Aotearoa New Zealand by the Ministry for the Environment. It is worth noting that incineration does not replace the need for landfills - instead it takes ordinary materials and concentrates them into ash that is more toxic. While investing hundreds of millions of dollars into an incinerator locks in the need for continued production of waste, meaning the community misses out on the opportunity of other waste uses.

It is very concerning that there is no human health assessment of this proposal. The incineration plant is a hazardous facility with serious risks of harm to human health. The plant will emit cancer-causing dioxins and furans, sulphur dioxide, nitrogen oxide, mercury and particulate matter which will be released into the air. Studies have shown direct links from dioxins to non-Hodgkins lymphoma, increases in risks of miscarriages and pre-term delivery of babies. There are links to reduced male fertility. In the Netherlands, research conducted indicated that the high dioxin output from waste incinerators could be responsible for contamination of cow's milk and meat. As a result, the production and sales of dairy products from was prohibited for several years. Under NZ's air quality standards, it is illegal to burn even one tyre because the health and environmental effects are so toxic - yet, this project is proposing to burn 35,000 tonnes a year. Burning tyres emits cyanide, carbon monoxide, sulfur dioxide, and products of butadiene and styrene. The odour and dust that will be produced have not been adequately assessed.

There will be significant additional traffic in a residential area, adding to air pollution and impacting those who are old, very young and immunocompromised. It will change the nature of the community from a quiet residential street to an unsafe and busy thoroughfare of trucks at all hours of the day and night.

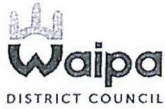

I strongly urge you to reconsider this proposal and prioritise the safety and wellbeing of our community, children, land, air, livestock, health and water now and for generations to come.

Kind Regards,

Monique Reid

You may not make a request under section 100A of the Resource Management Act 1991 in relation to an application for a coastal permit to carry out an activity that a regional coastal plan describes as a restricted coastal activity.

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- it is frivolous or vexatious:
- it discloses no reasonable or relevant case:
- it would be an abuse of the hearing process to allow the submission (or the part) to be taken further:
- it contains offensive language:
- it is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

Privacy information

The information you have provided on this form is required so that your submission can be processed under the RMA. The information will be stored on a public register and held by the Council, and may also be made available to the public on the Council's website. In addition, any on-going communications between you and Council will be held at Council's offices and may also be accessed upon request by a third party. Access to this information is administered in accordance with the Local Government Official Information and Meetings Act 1987 and the Privacy Act 1993. If you have any concerns about this, please discuss with a Council Planner prior to lodging your submission.

Submission on a Notified Resource Consent Application

Form 13

Sections 41D, 95A, 95B, 95C, 96, 127(3) and 234(4),
Resource Management Act 1991

This is a submission on:

APPLICANT'S NAME: Global Contracting Solutions Limited

LOCATION: 401 Racecourse Road, Te Awamutu

I am/am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I am/am not directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

This entire application.

My submission is:

Support parts or all of ☐ Oppose parts or all of ☒ are neutral parts or all of ☐
include—

- the reasons for your views.

There is no proof that this is safe
for people to live around/hear

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

I wish the Council to stop this application.

I wish (or do not wish) to be heard in support of my submission.

- ☒ I do wish to be heard in support of my submission
(this means that you will speak at the hearing)
- ☐ I do not wish to be heard in support of my submission
(this means that you will not be advised of the date of the hearing and will not speak at the hearing)
- ☒ If others make a similar submission I will consider presenting a joint case with them at the hearing.

You must tick one of the boxes above, otherwise it will be deemed that you do not wish to be heard and we will not advise you of the date of the hearing.

- ☒ I have served a copy of my submission on the applicant.
(this is required by section 96(6) (b) of the Resource Management Act 1991)

I request/do not request*, pursuant to section 100A of the Act, that you delegate your functions, powers, and duties to hear and decide the application to one or more hearings commissioners who are not members of the local authority.

Signature of submitter: 

(or person authorised to sign on behalf of submitter) (A signature is not required if you make your submission by electronic means.)

Date: 12.10.23

Contact person: Conor Plunkie

(name and designation, if applicant)

Postal address: 11 Magellan Rise

(or alternative method of service under section 352 of the Act):

Notes to submitter

If you are making a submission to the Environmental Protection Authority, you should use form 16B.

The closing date for serving submissions on the consent authority is the 20th working day after the date on which public or limited notification is given. If the application is subject to limited notification, the consent authority may adopt an earlier closing date for submissions once the consent authority receives responses from all affected persons.

If you are a trade competitor, your right to make a submission may be limited by the trade competition provisions in Part 11A of the Resource Management Act 1991.

You must serve a copy of your submission on the applicant as soon as reasonably practicable after you have served your submission on the consent authority.

If you make your submission in hard copy please deliver to Waipa District Council, 101 Bank Street, Te Awamutu or 23 Wilson Street, Cambridge or post to Private Bag 2402, Te Awamutu 3840

If you make your submission by electronic means, a signature is not required. Electronic submissions on resource consent applications must be directed to submissions@waipadc.govt.nz.

If you make a request under section 100A of the Resource Management Act 1991, you must do so in writing no later than 5 working days after the close of submissions and you may be liable to meet or contribute to the costs of the hearings commissioner or commissioners. You may not make a request under section 100A of the Resource Management Act 1991 in relation to an application for a coastal permit to carry out an activity that a regional coastal plan describes as a restricted coastal activity.

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- it is frivolous or vexatious:
- it discloses no reasonable or relevant case:
- it would be an abuse of the hearing process to allow the submission (or the part) to be taken further:
- it contains offensive language:
- it is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

This is a submission on:

APPLICANT'S NAME: Global Contracting Solutions Limited

LOCATION: 401 Racecourse Road, Te Awamutu

I [REDACTED] am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I am/am not directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
(b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

The entire application.

My submission is:

Support parts or all of ☐ **Oppose** parts or all of ☒ **are neutral** parts or all of ☐
include—

- the reasons for your views.
- The impact on the residents of Te Awamutu with the increased trucks coming into town. I live on Ohaupo Road and the traffic, in particular trucks are already frequent and noisy. Our family does not need more trucks coming into town. I want my children to be able to walk to school, and cross the road safely. It is a safety issue.
- I have had cancer, I would not wish it on anyone. All of the promises in the world can be made about the low environmental impact that this factory will have. I do not believe it. There will be toxins leached into our environment, ruining our beautiful environment, and it will impact our health negatively.
- This factory is right near people's homes, and the schools that my children attend. Why?
- Why Te Awamutu?
- The value of my home will be affected. Who wants to live near a giant incinerator with rubbish trucks coming in and out of town 24 hours a day.
- Find another method of dealing with waste.
- This is not just about generating power, this is also a giant money making scheme for the company. Corporate greed over the wellbeing of a small town is disgusting. They should be ashamed!

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

DECLINE APPLICATION!

I wish (or do not wish) to be heard in support of my submission.

The closing date for serving submissions on the consent authority is the 20th working day after the date on which public or limited notification is given. If the application is subject to limited notification, the consent authority may adopt an earlier closing date for submissions once the consent authority receives responses from all affected persons.

If you are a trade competitor, your right to make a submission may be limited by the trade competition provisions in Part 11A of the Resource Management Act 1991.

You must serve a copy of your submission on the applicant as soon as reasonably practicable after you have served your submission on the consent authority.

If you make your submission in hard copy please deliver to Waipa District Council, 101 Bank Street, Te Awamutu or 23 Wilson Street, Cambridge or post to Private Bag 2402, Te Awamutu 3840

If you make your submission by electronic means, a signature is not required. Electronic submissions on resource consent applications must be directed to submissions@waipadc.govt.nz.

If you make a request under section 100A of the Resource Management Act 1991, you must do so in writing no later than 5 working days after the close of submissions and you may be liable to meet or contribute to the costs of the hearings commissioner or commissioners. You may not make a request under section 100A of the Resource Management Act 1991 in relation to an application for a coastal permit to carry out an activity that a regional coastal plan describes as a restricted coastal activity.

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- it is frivolous or vexatious:
- it discloses no reasonable or relevant case:
- it would be an abuse of the hearing process to allow the submission (or the part) to be taken further:
- it contains offensive language:
- it is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

Privacy information

The information you have provided on this form is required so that your submission can be processed under the RMA. The information will be stored on a public register and held by the Council, and may also be made available to the public on the Council's website. In addition, any on-going communications between you and Council will be held at Council's offices and may also be accessed upon request by a third party. Access to this information is administered in accordance with the Local Government Official Information and Meetings Act 1987 and the Privacy Act 1993. If you have any concerns about this, please discuss with a Council Planner prior to lodging your submission.

Submission on a Notified Resource Consent Application

Form 13

Sections 41D, 95A, 95B, 95C, 96, 127(3) and 234(4),
Resource Management Act 1991

This is a submission on:

APPLICANT'S NAME: Global Contracting Solutions Limited

LOCATION: 401 Racecourse Road, Te Awamutu

I ~~am~~/am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I am/~~am not~~ directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
(b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

I am already working hard to rid my system of toxic damage affecting my health. Do not need more poured into the environment. Come to this region to get away from Auckland's pollution.

My submission is:

Support parts or all of ☐ **Oppose** parts or all of ☒ **are neutral** parts or all of ☐
include—

- the reasons for your views.

The Entire Application.

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

To Decline the entire Application

I wish (or do not wish) to be heard in support of my submission.

- ☒ I do wish to be heard in support of my submission
(this means that you will speak at the hearing)
- ☐ I do not wish to be heard in support of my submission
(this means that you will not be advised of the date of the hearing and will not speak at the hearing)
- ☒ If others make a similar submission I will consider presenting a joint case with them at the hearing.

You must tick one of the boxes above, otherwise it will be deemed that you do not wish to be heard and we will not advise you of the date of the hearing.

- ☒ I have served a copy of my submission on the applicant.
(this is required by section 96(6) (b) of the Resource Management Act 1991)

I ~~request~~/do not request*, pursuant to section 100A of the Act, that you delegate your functions, powers, and duties to hear and decide the application to one or more hearings commissioners who are not members of the local authority.

Signature of submitter: M. E. Ridge

(or person authorised to sign on behalf of submitter) (A signature is not required if you make your submission by electronic means.)

Date: 13-10-23

Contact person: Marion Ridge

(name and designation, if applicant)

Postal address: 77 Penny Rd, Pirongia 3876

(or alternative method of service under section 352 of the Act):

Notes to submitter

If you are making a submission to the Environmental Protection Authority, you should use form 16B.

The closing date for serving submissions on the consent authority is the 20th working day after the date on which public or limited notification is given. This is a submission on:

APPLICANT'S NAME: Global Contracting Solutions Limited

LOCATION: 401 Racecourse Road, Te Awamutu

I am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.

I am directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

The specific parts of the application that my submission relates to are:

___ The proposed incinerator will produce dioxins (amongst other toxic compounds such as cyanide, carbon monoxide, zinc oxide, sulphur dioxide, butadiene and styrene) and that pollute the air. Dioxins are extremely toxic even in low levels. There are no safe levels of dioxins. They will be emitted into the air and will settle on the land and in the water. Dioxins can bio accumulate in human fat tissue and in animals. Thus, they can taint the food chain. This could lead to human health issues and may result in overseas markets not wanting to buy our contaminated produce (crops, meat, milk). The zinc oxide derived from burning tyres has not been modelled by the application but is extremely toxic to aquatic life. The smell of burning 35 000 tyres a year would make our community unhealthy and unliveable. It would drive down house prices and quality of life in the area. The incinerator will produce approximately 23 tonnes of toxic ash (heavy metals, dioxins, microplastics) per day that will need to be landfilled. The proposed incinerator will contaminate vast quantities of water to push the turbines to make the electricity. That tainted water will have to be disposed of elsewhere. Where is it being disposed? The incinerator will unsustainably use water in an area that already has water availability issues. It is an unnecessary use of a limited resource. Stormwater from the site will be discharged into the Mangapiko stream. It is likely to be contaminated by fly ash. The incinerator will use non-renewable feedstock such as plastic waste, tyres, flock and mixed solid stock (ie. fossil fuel production), which is counter to worldwide efforts to decarbonise the energy sector. It will directly produce 150 kilotons of CO₂ a year.

My submission is:

Support parts or all of ☐ **Oppose** parts or all of ☒ **are neutral** parts or all of ☐
include—

- the reasons for your views.

___ I have lived in Te Awamutu for over 25 years. I have brought my children up here and would like to continue to live here safely, nurturing my grandchildren. I am concerned about what this incinerator means for the health of the people of this town, especially the tamariki at the schools/ early child care centres within a 3 km radius. I am also concerned about the bioaccumulation of toxins in the food chain (dairy cows, stock, domestic chickens, crops, homegrown vegetables.) This is an environment and health issue but it is also an economic issue. Would that make our livestock and dairy unable to be sold? What would it do to house prices in the town? What would it mean for the health of our waterways and those drinking it? When my children were younger, they worked to help maintain the health of Mangapiko

Stream by planting and removing rubbish. The toxins will poison it. The substantial earthworks of the building will impact it's health and well being. I call this area home and don't want it to become toxic. No modification would make this facility safe or positive, in my opinion.

I seek the following decision from the consent authority:

give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought

___I do not want the application LU/0323/21 to be granted at all. _____

I wish (or do not wish) to be heard in support of my submission.

☐ I do wish to be heard in support of my submission
(this means that you will speak at the hearing)

☐ I do not wish to be heard in support of my submission
(this means that you will not be advised of the date of the hearing and will not speak at the hearing)

☐ If others make a similar submission I will consider presenting a joint case with them at the hearing.

You must tick one of the boxes above, otherwise it will be deemed that you do not wish to be heard and we will not advise you of the date of the hearing.

☐ I have served a copy of my submission on the applicant.
(this is required by section 96(6) (b) of the Resource Management Act 1991)

I request/do not request*, pursuant to section 100A of the Act, that you delegate your functions, powers, and duties to hear and decide the application to one or more hearings commissioners who are not members of the local authority.

Signature of submitter: _____

(or person authorised to sign on behalf of submitter) (A signature is not required if you make your submission by electronic means.)
