Morning Sharyn

In response to the submitters comments, we note the following:

- The *Pink Camelia* are not deemed acceptable, as they don't align with the colouration and visual appearance of the development. Further, Camelias are 'busy plants' which are not deemed suitable for a driveway, given the mess associated with dropping flowers.
- The applicants are willing to compromise and plant 'Michelia Magnolia'. The benefits of Michelia Magnolia are as follows:
 - Smaller leaf than 'Little Gem'
 - Likes to be trimmed, so its easy to keep at sustainable growth
 - Has a stem
 - Easy to compost with small flower and leaves
 - Has white flowers and will go well with the décor of the development.

If you have any questions, please contact me.

Kind regards,

Gareth Moran MNZPI
