

CHOOSE WATER SMART PRODUCTS AND SAVE

Smart Water Starts with You! aims to make long-term change to how we use water and is a joint venture between Hamilton City Council, Waikato District Council and Waipa District Council.

**SMART WATER
STARTS WITH YOU!**

AN EXAMPLE OF A 6-STAR WASHING MACHINE LABEL.

New Zealand has a water efficiency labelling scheme (WELS) to help you choose products that use less water and save you money in the long run. It's simple – the more stars on the WELS label, the more water efficient the product is.

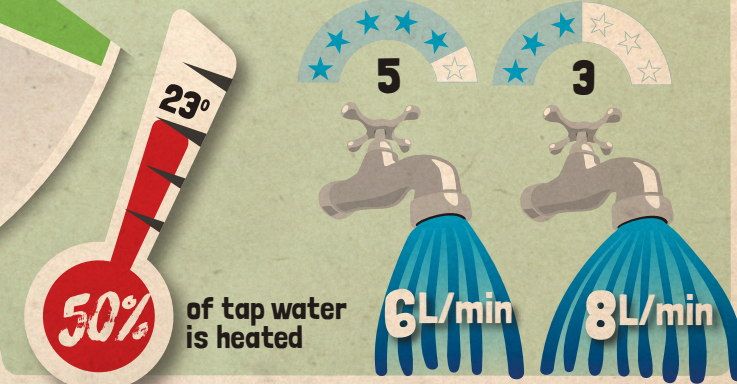

The WELS label displays two key pieces of information:

- a star rating indicating relative water efficiency
- a water consumption or water flow figure in:
 - litres per minute (for showers and taps)
 - litres per wash (for washing machines and dishwashers)
 - litres per flush (for toilets and urinals).

For more information on WELS visit www.mfe.govt.nz

WHAT'S THE MOST STARS YOU CAN GET?

SAVE WATER, SAVE MONEY.

30% of your energy bill is from heating water, if you save water inside the home you'll save energy and money too. Dishwashers, washing machines and other

products that use water have a long life. So when you're looking to buy remember, the most efficient product will save you the most money in the long run.
